COURSES PROVIDED

Advanced Quantitative Methods for Parks, Recreation, and Tourism Management (Fall 2023; 2022; Spring 2023; 2024)

Parks, Recreation, and Tourism Management 8140 (3 Credit Hours)

An applied overview of intermediate advanced research design strategies, descriptive, and inferential statistical techniques with a particular emphasis on conceptual, computational, and computer applications relevant to the fields of Park, Recreation, and Tourism Management.

Recreation Financial Resources Management (Fall 2021; 2019; 2018; Spring 2024; Summer 2023; 2022; 2021)

Parks, Recreation, and Tourism Management 4210 (3 Credit Hours)

Introduces student to foundational statistical concepts and techniques and their application within Parks, Recreation and Tourism Management.

Data Analysis: Univariate Analysis in Parks, Recreation, and Tourism (Fall 2023; 2022; 2021; 2020; Spring 2022)

Public Administration 8410 (3 Credit Hours)

Introduces student to foundational statistical concepts and techniques and their application within parks, recreation, and tourism management to include analysis of variance and multiple regression.

Professional Preparation for Parks, Recreation and Tourism Management (Spring 2021)

Parks, Recreation, and Tourism Management 3030 (3 Credit Hours)

This course prepares students for their Parks, Recreation and Tourism Management field placement experience and their post-graduation employment search and career development.

Program and Event Planning in Parks, Recreation and Tourism Management (Spring 2021)
Parks, Recreation, and Tourism Management 2220/2221 (4 Credit Hours)
Introduces concepts, principles, and skills necessary to plan, implement, and evaluate leisure and recreation programs and events.

Advanced Applications of Data in Parks, Recreation, and Tourism Management (Spring 2020; Fall 2020)
Selected Topics in Parks, Recreation, and Tourism Management 9000 (3 Credit Hours)
An applied overview of intermediate advanced research design strategies, descriptive, and inferential statistical techniques with a particular emphasis on conceptual, computational, and computer applications relevant to the fields of Park, Recreation, and Tourism Management.

Applied Latent Statistical Analysis (Spring 2020; 2019)
Selected Topics in Parks, Recreation, and Tourism Management 9000 (3 Credit Hours)
Apply confirmatory factor analyses and structural equation modelling techniques to a “real” PRTM data set for academic publication.

Data Analysis: Multivariate Analysis in Parks, Recreation, and Tourism (Fall 2019)
Public Administration 8410 (3 Credit Hours)
Explores foundational and intermediate statistical concepts and techniques and their application within parks, recreation, and tourism management to include multiple regression, factor analysis, and nonparametric techniques.

Data Analysis (Summer 2019; 2018; 2017)
Public Administration 8410 (3 Credit Hours) *Online Synchronous
Introduces student to foundational statistical concepts and techniques and their application within Parks, Recreation and Tourism Management.

Commercial Recreation (Spring 2019)
Parks, Recreation, Tourism Management 4410 (3 Credit Hours)
The goal of this course is for students to learn and understand the process of starting a recreation, event, and tourism industry business or enterprise.

Applied Latent Statistical Analysis (Spring 2018)
Independent Study in Parks, Recreation, and Tourism Management 9000 (2 Credit Hours)
Apply confirmatory factor analyses and structural equation modelling techniques to a “real” PRTM data set for academic publication.

Advances in Research Methods Addressing Leisure and Recreation Experiences: The Emotions within Socio-Emotional Models of Leisure Behavior (Fall 2017)
Selected Topics in Parks, Recreation, and Tourism Management 9000 (1 Credit Hour)
This course explores recent advances in the neurosciences which indicate that “rational actor” approaches to researching human experiences may be largely misleading.

Applying Advanced Statistics to Parks, Recreation, and Tourism Management (Fall 2017)
Independent Study in Parks, Recreation, and Tourism Management 9000 (3 Credit Hours)
Develop deeper understanding in the function and application of a “real” PRTM data set through an exploration and analysis of a secondary data set for publication.

EDGE (Fall 2017)

Parks, Recreation, and Tourism Management 1980, 2260, 2270, and 2290 (15 Credit Hours)
Integrated core curriculum, establishing foundational understanding of the field of Parks, Recreation, and Tourism Management.

Conceptual Foundations of PRTM (Spring 2017; 2016)

Parks, Recreation, and Tourism Management 2200 (3 Credit Hours)
Introduces students to the parks and recreation profession including professional organizations, current issues and trends, and social and behavioral science underpinnings.

Youth Activity Facilitation and Leadership (Spring 2016)

Youth Development Studies 3350 (3 Credit Hours)
Provides a foundation for effective experiential activity facilitation to meet the needs of diverse youth populations. *Online Synchronous

DOCTORAL COMMITTEES

ACADEMIC COMMITTEE BASED SERVICE

Curriculum Committee

Chair

2023 – Present

Clemson University: Department of Parks, Recreation, and Tourism Management

Guide faculty in the design, implementation, and evaluation of undergraduate and graduate courses

College of Behavioral, Social, and Health Sciences Community and Diversity Committee

Member

2022 – 2024

Assist the college with the assessment, planning, implementation, and evaluation of the college's diversity plan.

REYSE Collaboratory: For the Study of Race, Ethnicity, Youth, and Social Equity

Assistant Director of Research and Evaluation

2020 – Present

Clemson University

Guide study design, implementation, and assessment through the collaborative lens of REYSE

Faculty Advisory Committee

Member

Clemson University: Department of Parks, Recreation, and Tourism Management

2021- 2023

Assist with the planning and strategic direction of the department.

Graduate Committee

Member

Clemson University Department of Parks, Recreation, and Tourism Management

2019 – 2021

Assist with the growth and development of the PRTM Graduate Program

National Recreation and Parks Association, Educational Network Leadership Committee

Member

May 2016 – September 2017

Assist and contribute to the growth and sustainment of the educational networks vision and mission.

Clemson Graduate Student Government

Senator

January 2015 – May 2015

Senate Representative for Clemson's Department of Parks, Recreation, and Tourism Management

Association of Outdoor Recreation Educators (AORE)

Graduate & Undergraduate Literary Award Chair

October 2012 – November 2014

Responsible for peer review and recruitment of student writers for publication and presentation at the annual meeting of AORE.

CONFERENCE, SYMPOSIUM, AND SESSION BASED SERVICE

Graduate Student Speaker Series: Fall 2021 to Spring 2022

Session Moderator and Video Manager: Announce, Distribute, Record, and Archive the Leisure Academy Graduate Student Speaker Series

Clemson University 3MT: Fall 2021

Faculty Judge: Assess Preliminary Graduate Student Presentations in the Three Minute Thesis Competition

Global Indigenous Youth Summit: Spring 2021

Session Moderator: Creating and sustaining community.

Clemson University 3MT: Fall 2019

Faculty Judge: Assess Preliminary Graduate Student Presentations in the Three Minute Thesis Competition.

Clemson University Research Symposium: Spring 2019

Session Moderator: Addressing the Needs of at-Risk Youth in Public Schools and After-school Programs.

COMMUNITY AND PRACTITIONER SERVICE

American Mountain Guides Association (AMGA)

AMGA Guide Scholarship Committee

May 2014 – May 2021

Responsible for the review and awarding of scholarships for the AMGA guide scholarship program.

Freedom Fences

Volunteer

August 2017 – January 2020

Implement local strategies to manage pet care for under resourced community members.

Climbing Wall Association

Research Advisory Committee

January 2019 – January 2020

Establishing and developing research capacity within the indoor climbing wall industry to inform evidence-based practices.

USA Climbing

Research Advisor

Research and Assessment Team

August 2014 – January 2019

Responsible for survey analysis, design, administration for state of the sport stakeholder surveys and corresponding report(s).

Association for Challenge Course Technology (ACCT)

ACCT Practitioner Certification Development Committee Member

July 2016 – September 2017

Responsible for the development, implementation, and assessment of the national ACCT practitioner certification program.

Climbing Wall Association

Climbing Wall Industry Survey Committee Member

August 2014 – November 2014

Responsible for survey development, administration, and analysis to provide a state of the industry report for non-profit and for-profit climbing gyms salary and organizational structuring.

POST-GRADUATE TRAINING AND PROFESSIONAL DEVELOPMENT

Using Faculty Insight to Boost Your Research

Clemson University Office of Research Development

April 2023

Using Faculty Insight to enhance their research, find collaborators, identify funding opportunities, and make their research more visible.

Tigers Together Suicide Prevention Advocacy Training

Clemson University Office of Student Affairs

February 2023

Suicide Prevention Advocate Training based on Campus Connect, an experiential training that enhances advocates' knowledge, awareness, and skills concerning college student suicide.

Indigenous Methodologies: Decolonizing Your Research

American Indian College Fund

December 2022

Exploring the use of Indigenous methodologies to guide research in Indigenous digital activism to decolonizing love & relationships to Indigenous feminist approaches.

Demystifying the Data Anonymization Process: Myths and Best Practices

The Center for Open Science

July 2022

An applied training facilitating current best practices in designing experiments for data sharing, transparency, and respondent protection.

Machine Learning and Big Data Analytics in Python

Clemson University Advanced Computing and Data Science

June 2021

An applied overview of the processes underpinning machine learning within a high-performance computing context (the Palmetto Cluster), to include supervised and unsupervised models utilizing JupyterLab, scikit-learn, MATLAB, and Tensorflow API.

Trailblazers: Provost's Mentoring Initiative for Faculty

Clemson University

Fall 2020 – Spring 2021

Provost's Mentoring Initiative for Faculty to assist pre-tenure and tenured faculty in developing their abilities to transform organizations by serving as advocates and champions of gender equity in higher education.

Web Scraping: Data Collection and Analysis

Consortium for Advanced Research Methods and Analysis (CARMA): Columbia, SC

January 2020

Conversion of structured and unstructured web-based data from HTML to R for large to big data sets for applied social science analyses.

Advanced Structural Equation Modelling (SEM)

Consortium for Advanced Research Methods and Analysis (CARMA): Detroit, MI

June 2019

Applied Comprehensive Exploration of Measurement Invariance, Latent Growth Modeling, Non-recursive Modeling, Missing Data Issues in SEM, Multi-Level SEM and Latent Interactions within the open-source R studio and Lavaan software packages.

Introduction to Structural Equation Modelling (SEM) with R and Lavaan

Consortium for Advanced Research Methods and Analysis (CARMA): Columbia, SC

January 2019

Principals underlying structural equation modelling (SEM), measurement model evaluation and confirmatory factor analysis (CFA). Interpretation and application of parameter estimation techniques, measurement model comparison, longitudinal approaches, and competing measurement model testing within the open-source R studio and Lavaan software packages.

Overview of Grant Writing

Clemson Center for Research and Collaborative Activities

Fall 2018

Explore and develop grant writing capacity for emerging scholars.

Comprehensive Structural Equation Modelling (SEM)

Stats Camp: Atlanta, GA

February 2018

Intensive short seminar on the principles of Structural Equation Modelling (SEM), including confirmatory factor analysis, multiple-group comparisons, factorial invariance as well as extended applications such as hierarchical models and multi-level SEM.
